Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art did not teach or suggest a multi-domain vertical alignment liquid crystal display having protrusions and slits for producing a multi-domain display on only one substrate, and a planarized dielectric layer formed on the protrusions and slits. Kim (U.S. 6,424,396) includes protrusions and slits on both substrates and in the examiner's opinion, it would not have been obvious to modify the device to have protrusions and slits on only one substrate since this would significantly change the liquid crystal alignment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Chung whose telephone number is (571) 272-2288. The examiner can normally be reached on Monday-Friday from 8:30 am to 5:00 pm.
